- Brass Nipples

Effective January 4th, 2014, the Reduction of Lead in Drinking Water Act - SDWA, requires all pipes, pipe fittings, plumbing fittings, and fixtures sold or installed in the United States for use in a potable water system to contain less than 0.25% weighted average lead content on wetted surfaces. In accordance with SDWA, all gate valves for water main distribution services that are 2" and larger, do not need to be lead free.
